## КАБАРЕ

Ако е вярно, че очите са прозорец към душата, то в тази тук е безкраен празник. Фуксия, малина, циклама и зрял нар – с тези цветове светлите ви ириси ще заблестят още по-красиво и игриво. Блясъкът е силно препоръчителен, а размахът с четката – задължителен! Другото, което не бива да подценявате и пропускаете, е надеждната база за сенки – тя е тази, която ще „залепи“ цветовете на място.

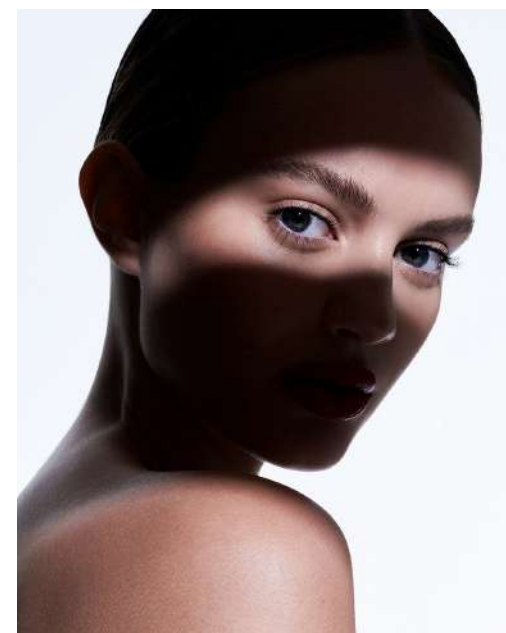

**Съвет:** Тези цветове са красиви, но могат да придадат умора на погледа. Ще го избегнете с малко бял молив във водната линия на окото.

## СИН ЖАСМИН

Тук на фокус са очите. И то какви! Кралското синьо е леко ангажиращ, но благороден цвят, който затопля кафявите ириси и придава изгривост на сините. Формата на грима е тип котешко око, техниката – опушване, а стилът напомня за супермоделите от края на 80-те и началото на 90-те.

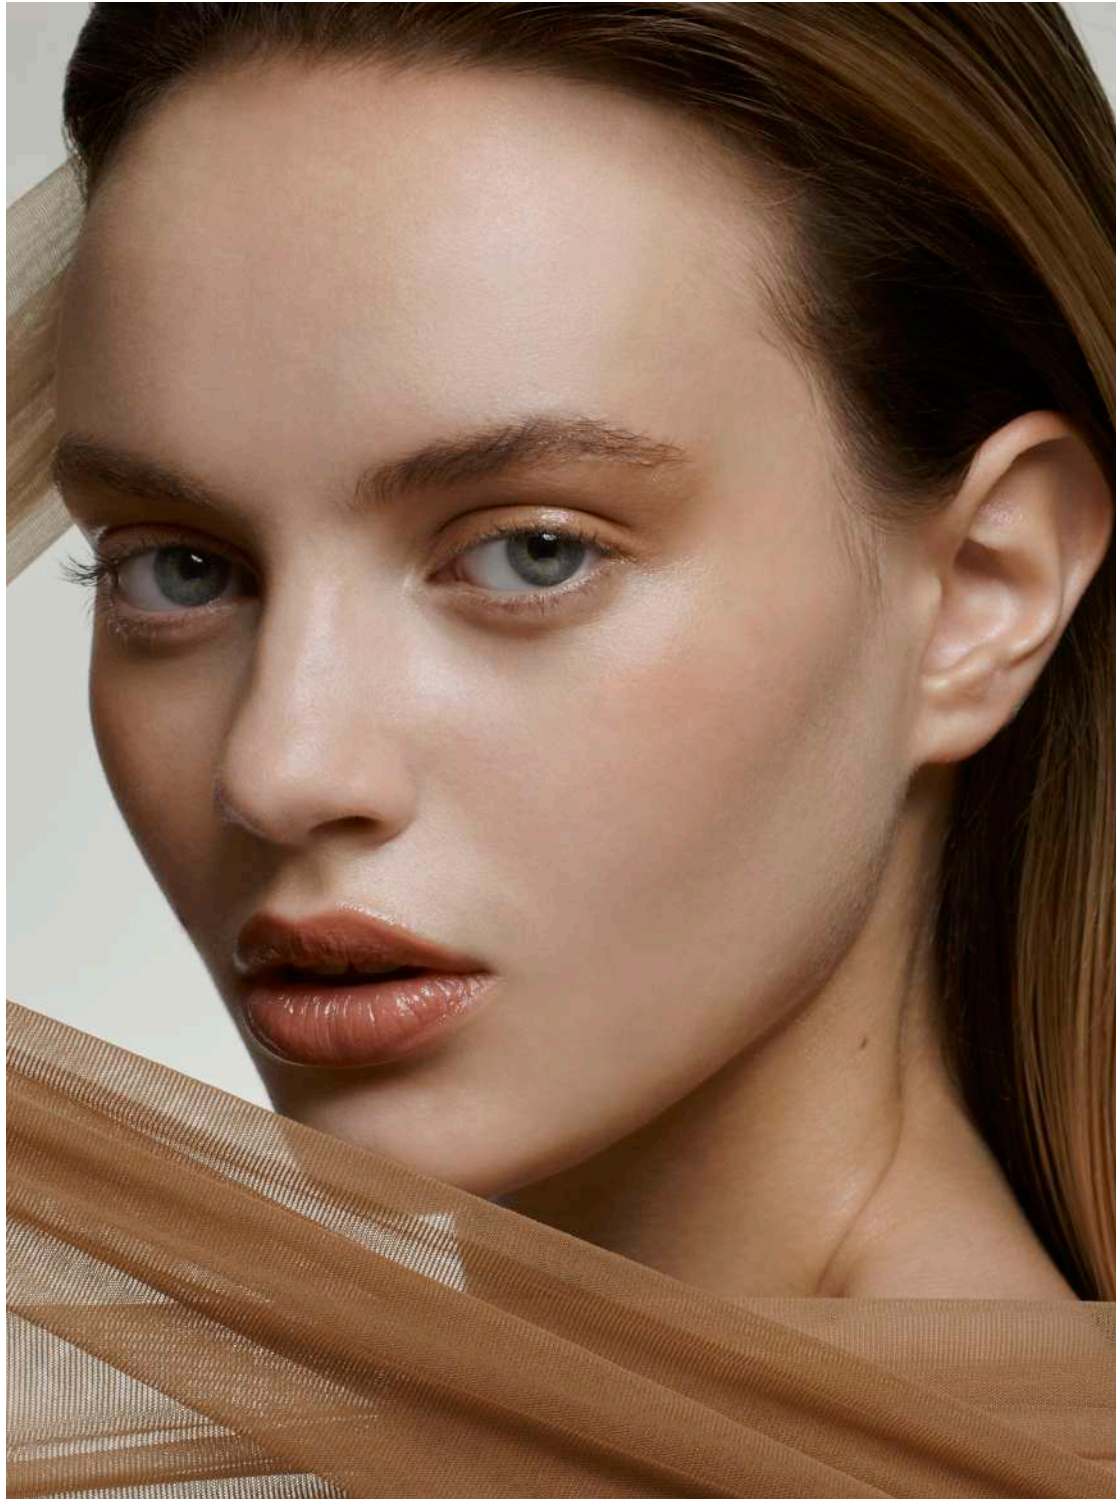

**Съвет:** Използвайте мека четка с дълги естествени косъмчета и я дръжте в средата на дръжката, за повече въздушност в движенията.

**ПУСТИННА БУРЯ**  
В тези нежни и карминени цветове можели да потънете чувствено като в пясъци пустини. Покривеното над черни джамани, ще гримът с мекота и виняти по мекота. Дълбоката на линията е изключителна със смелостта на буржуази и карминено, които плавно преливат едно в друго, изключително от мекота очите линия във въздуха.

**Съвет:** Ако имате нърва от корейци и използване на четката, използвайте четка.

A black and white fashion portrait of a woman with dark hair pulled back, looking intensely at the camera. She is wearing a black sleeveless top with a deep V-neckline. Her hands are positioned in front of her chest, adorned with several rings and wide, patterned bracelets. The background is dark and out of focus. On the far left edge, there is vertical text in Russian and English.

# КРИСТА ЧЕРНЕВА

**ВСИЧКИ ИСКАТ НЕТФЛИКС,  
А НЕТФЛИКС ИЗБРА НЕЯ**

Това момиче дръзва да твърди, че 2020-а не била чак толкова лоша година. Направо си била много хубава, дори най-успешната му досега. И как не! Именно през тази пандемична 2020-а тя печели кастинг за една от главните роли в нов сериал на стрийминг платформата Нетфликс – нещо като новия Холивуд за актьорите. Всички искат да снимат за Нетфликс, само че Нетфликс не иска всички. На българката Кристи Чернева обаче не устоя.

*Естествено, вижте я само!*

Krista floats like an angel on a cloud of tulle, and her hair is swept and tousled by the wind. She displays her exquisite collection of gowns while on her outing at the park. Trees and other greenery compete with a sheet of grey muslin to be her backdrop.
